*Quarterly News Letter  
July 2023 to September 2023*

### **From the Director's Desk:**

*It is with immense pleasure and pride that I address you from the Director's desk for the July to September session of our newsletter. This period has seen significant developments that I am excited to share with you.*

*The inauguration of Nakhsatra Vanam, the new tree house extension, water ATMs, and the installation of a Giant P4 screen at NIC by the Hon'ble MIC Forests of the Government of West Bengal mark important milestones for us. These initiatives reflect our commitment to environmental conservation and the promotion of nature-based activities.*

*Throughout this quarter, we have been fervently engaged in educational programs designed to raise awareness and foster a love for the natural world. Our seminars, workshops, quizzes, plantations, poster making, animal mask making, extempore, animal talk, and dressing up as animals have all been met with enthusiasm. We've aligned our activities with key dates such as World Zoonoses Day, International Tiger Day, World Elephant Day, and International Rhino Day, reinforcing our dedication to wildlife protection.*

*Lastly, we're delighted to share the heartwarming news of the arrival of newborn tiger cubs of Rika. This is a testament to our commitment to the conservation of these magnificent creatures, and we look forward to witnessing their growth and progress in the coming months.*

*We hope this update gives you a glimpse into the exciting happenings at our park. Thank you for your continued support, and we look forward to sharing more updates with you soon.*

### **Staff Corner:**

**Welcoming of Assistant Director, NBWAP :**  
On 29th August 2023 Bengal Safari welcomed Sri Abhishek Chowdhury, WBFS, as the new Assistant Director of the park. He previously held the esteemed position of ADFO in the Purulia Division.

### **Inauguration Activities:**

**Inauguration of Nakhsatra Vanam, New Tree House Extension, Water ATMs and P4 LED screen of NIC :**

On August 26, 2023, an auspicious occasion unfolded as the Hon'ble MIC Forests of West Bengal inaugurated several noteworthy initiatives. The ceremony marked the unveiling of Nakhsatra Vanam, a unique medicinal plant garden where astrology intersects with the realm of plants. Additionally, the event celebrated the unveiling of a new tree house extension, the introduction of Water ATMs, and the installation of a P4 LED screen at the Nature Interpretation Centre.

This grand inauguration took place in the presence of esteemed dignitaries, including Sri Debal Ray, IFS, PCCF & CWLW, West Bengal; Sri V.K. Sood, IFS, PCCF & MD, WBFDCCL; Sri S. Chaudhuri, IFS, APCCF & Member Secretary, WBZA; Sri Ujjal Ghosh, IFS, Addl PCCF (North), and several other senior forest officials from North Bengal. The event was a momentous occasion, symbolizing our commitment to environmental conservation and the integration of nature with innovative approaches.

## Special ***Achievement***

Bengal Safari Receives "Best Green Investment Tourism Unit" Award

**We are thrilled to announce a remarkable achievement for Bengal Safari.**

The North Bengal Wild Animals Park popularly known as Bengal Safari have been bestowed with the prestigious title of "**Best Green Investment Tourism Unit**" by The Himalayan Hospitality and Tourism Development Network in association with the Ministry of Tourism, Government of India, Eastern Regional Office, Kolkata, .

This award underscores our unwavering commitment to sustainable and eco-friendly tourism practices, reflecting our dedication to environmental conservation and responsible tourism. Bengal Safari is immensely proud to receive this recognition, which further motivates us to continue our efforts in promoting green tourism.

We extend our gratitude to our dedicated team and the Ministry of Tourism for their support. This achievement reaffirms our commitment to preserving the natural beauty and biodiversity of our region while providing exceptional hospitality to our visitors.

## Educational Activities:

### Celebration of World Zoonoses Day 06.07.2023

In commemoration of World Zoonosis Day, on 5th July 2023, the North Bengal Wild Animal Park (NBWAP) organized a comprehensive one-day workshop at the Nature Interpretation Centre of Bengal Safari. This hands-on workshop focused on various aspects of bird care, including handling techniques, dietary requirements, enrichment activities, early disease detection, and maintaining biosecurity in aviaries. The event garnered significant participation from professionals in the field, including Mr. Indranil Bhattacharya - an esteemed avian expert, as well as the Director, Assistant Director, Range Officer, and other forest officials from NBWAP. Attended by 60 dedicated zoo keepers from different zoos located in West Bengal, this workshop served as a valuable platform for enhancing knowledge and practical skills related to biosecurity measures in aviaries. Participants had the opportunity to gain a deeper understanding of the significance of biosecurity practices while also gaining hands-on experience with bird handling and disease detection techniques. By providing new knowledge and insights into these critical areas of animal care, the workshop equipped zookeepers with enhanced abilities to ensure optimal care for exotic birds housed within their respective zoos.

### Banmahotsav 2023 Event: A Week-Long Plantation Drive 14.07.2023 to 20.07.2023

In an effort to promote environmental conservation, a week-long plantation drive was held at the North Bengal Wild Animals Park (Bengal Safari) as part of the Banmahotsav 2023 event. The event was attended by a diverse group of participants including students, forest officials, zoo staff, and visitors. The initiative was successful in planting approximately 1500 indigenous grafted fruit saplings in various areas within the zoo.

## International Tiger Day observance at NBWAP 29.07.2023

On July 29th 2023, North Bengal Wild Animals Park celebrated a spectacular event to mark International Tiger Day. The day was made even more special with over 100 students from St. Michael School for Girls in Siliguri in participation. The event was attended by forest officials and included a range of exciting activities, including talks on tiger conservation, a tour of the tiger safari, and a documentary screening on tiger conservation. The students were also treated to fun activities such as tiger face mask decorating and dressing up as tigers. The event was a tremendous success, with the students displaying remarkable enthusiasm and involvement throughout the day.

**International Moon Bear Day**  
Celebrated on 8th July 2023 with Adorable Video of Playful Moon Bear.  
In honor of International Moon Bear Day, a video of an adorable Moon bear named Dhruba was shared online. The video captured Dhruba happily wandering around the safari area, bringing joy to all who watched it. Visitors were delighted when Dhruba suddenly stood up and attempted to interact with them, adding to the joyous experience.

On 15th August 2023, Bengal Safari commemorated 77th Independence Day by paying tribute to our nation's remarkable journey towards freedom and unity.

## Celebration of World Elephant Day at NBWAP 12.08.2023

To commemorate World Elephant Day, national parks, sanctuaries, and zoos in North Bengal held an event in high spirits. The North Bengal Wild Animals Park, commonly known as Bengal Safari, was the host venue for the celebration, which included participation from a variety of groups, including school students, NGOs, JFMC members, and forest staff. The goal of the event was to raise awareness about the conservation of these vital animals. The celebration was graced by Sri Rajendra Jhakher, IFS, CCF, Wildlife North Circle, and other high-ranking forest officials.

Several notable schools, including Salugara High School, Bagdogra Balika Vidyalaya (H.S), Chowpukuha J H S, Nishkalanka Mata English School, KGTM College, Ramakrishna Mission, Smile Group (NGO), and many others, participated in the event. Students joined the procession to save elephants, demonstrating their reverence for the animals and raising awareness among the public about the cause. The students also participated in numerous activities, including a cake cutting ceremony, quiz competition, extempore speeches, recitation, clay model making, mask making, and a poster making competition.

The event began with students feeding the elephants, fostering a sense of empathy and connection with these majestic creatures. It concluded with a prize distribution ceremony, which added an unforgettable touch to the celebration.

# Celebration of International Rhino Day at NBWAP 12.08.2023

North Bengal Wild Animals Park hosted a special event in honor of International Rhino Day alongside students from Vidyasagar School, Naxalbari. The celebration offered a range of activities, including creative competitions such as mask-making and model-building, bringing attention to the importance of rhino conservation. The event also included a vibrant procession and a visit to Rhino Bheem, making it a memorable experience for everyone involved.

## Veterinary Activities

### Rescue and Rehabilitation of wild animals carried out by the zoo:

The rescue and rehabilitation of wild animals is an important aspect of Bengal Safari's mission to promote wildlife conservation. By providing top-quality treatment and care to rescued animals, the park is able to successfully manage and rear these species before releasing them back into the wild or handing them over to the respective forest department authorities and other zoos.

Here are some of the animals and birds that were rescued and treated at the park veterinary hospital between July and September 2023:

Date	Species	No. of animals received	No. of animals disposed	Received from	Disposal
04.07.2023	Barking Deer (F)	1	1	Kalimpong Range, Headquarter Rest, Kalimpong Forest Division	Released after treatment on same date to Kalimpong Range, Head Quarter Rest, Kalimpong Forest Division
30.08.2023	Oriental pied Hornbill	1	0	Kurseong Division	Under veterinary observation at BSNAP

Bengal Safari takes pride in its ability to nurse these animals back to health and contribute to the conservation of these species.

## Animal Corner:

### Welcoming the Newest Additions: The Arrival of Rika's Tiger Cubs :

**Introduction:** At the North Bengal Wild Animals Park, we are thrilled to announce the birth of three precious Royal Bengal Tiger cubs, born to our beloved tiger, Rika. These cubs represent a significant addition to our zoo's wildlife family. Rika's remarkable journey into motherhood began on August 19, 2023, when she gave birth to three healthy cubs, marking a momentous occasion in our conservation efforts.

**The Pregnancy and Gestation Period:** Rika, a female Royal Bengal Tiger, is the offspring of Sheela and Shnesasis and was born on May 11, 2018. After confirming her pregnancy, she underwent a full and healthy gestation period lasting 102 days, highlighting her excellent health and care provided by our dedicated staff.

**The Birth:** On August 19, 2023, Rika brought three robust and typical orange-hued cubs into the world. The birth took place with exceptional precision, each cub arriving at a different time in the early morning. The first cub was born at 12:49 am, followed by the second at 1:40 am, and the third at 2:39 am.

**Gender and Appearance:** Among Rika's three cubs, two are male and one is female. All three cubs exhibit the standard, striking orange hue characteristic of Royal Bengal Tigers. Their sizes are within the expected range for healthy tiger cubs, giving us hope for their robust development.

**Maternal Care:** Rika has demonstrated remarkable adaptability to motherhood. Her swift and adept response to the needs of her cubs has been essential in ensuring their thriving health and continued well-being. The immediate maternal care provided by Rika is a testament to the dedication of our tiger family to the nurturing of the next generation of this magnificent species.

The birth of these three tiger cubs is a cause for celebration at the North Bengal Wild Animals Park. It signifies our continued commitment to wildlife conservation and the protection of these iconic animals. We look forward to watching these cubs grow and contribute to the preservation of the Royal Bengal Tiger population.

## Research Corner:

### Research Update:

#### **Project 1: Captive Breeding & Management of Bengal Tiger" is in progress**

The research scholar is currently immersed in a behavioral study that centers on the in-house tigers, with a specific focus on the mother-cub relationship involving Rika and her offspring. As of now, she has accomplished several project objectives and has subsequently submitted them for evaluation:

- 1.The behavioral pattern of captive tigers in enclosures vs safari areas,
- 2.Enclosure utilization of each tiger at NBWAP and,
- 3.Determination of the frequency of occurrence of resting, exploring, and stereotypic behavior in captive tigers at NBWAP.

As part of the final compilation of data, behavioral observation will continue to be conducted in combination with the evaluation and improvement of interim reports.

#### **Project 2: The Study on Dung/Scat Analysis of Herbivore Animals in North Bengal Wild Animals Park to Analyze Presence of Gut Parasites**

The Research Assistant, NBWAP has taken up the responsibility for the project and, in the current quarter, has conducted a comprehensive analysis of 247 stool samples to detect gastrointestinal parasites. The Project Report with the first chapter, encompassing the introduction and literature review, has been completed, meticulously reviewed, revised, and finalized. Currently, the analysis of more samples and the writing of the report's second chapter are being worked on.

#### **Project 3: The Study of Hematological and Biochemical Values of Captive Asiatic Elephant (*Elephas maximus*)**

The Research Scholar has conducted blood analysis of the inhouse captive elephants of NBWAP. Multiple analysis from the same serum/ whole blood sample was done in this preliminary investigation. The initial chapters on introduction and literature review was completed and submitted to the respective sections for review. Communication for blood sample collection of captive elephants at Gormara National Park and Jaldapara National Park is in progress.

# Tigress Rika gives birth to 3 cubs at Siliguri safari park

Roshan Gupta | 194

With the birth of three cubs,  
'Bengal Safari: North Bengal  
Wild Animal Park' is now home  
to 13 tigers

Siliguri: A tigress gave birth to three cubs at Bengal Safari: North Bengal Wild Animal Park on August 18, increasing the number of Bengal tigers to 13 at the Siliguri park. State forest minister Jyotipriya Mallik said the cubs and their mother, Rika, were doing fine and under constant observation. The park now houses 13 tigers. Adult tigers include five males and five females, while the sex of the cubs is yet to be determined. A vet from Podra Naidu Himalayan Zoological Park has been called in. We also plan to keep a permanent vet at the park," said Mallik. Earlier, on July 12, an albino tigress, Kika, had given birth to two cubs. The first cub died the same day, while the other succumbed to cardio-respiratory failure caused by pneumonia on August 6. The mother, Kika, born in captivity on May 11, 2018, is also not doing well. Kika suffers from poor eye-

sight and limited hearing. It also walks with a limp. Due to Kika's inherent weaknesses, its cubs were also born with compromised health, said Kamal Sarkar, director of the park. Mallik said, "In December, four lions and ten tigers will be added to the park, probably from Odisha. The Central Zoo Authority has approved it. Enclosures are being made for the animals, and the work will be completed by December. The forest department has allotted 23 acres to Bengal Safari. The lion and tiger safari will be spread across 43 acres," said Mallik.
